RPC requires identity verification

Promises obtained

8

Commitments, not received cash

Verified attributed cash

3,490.00

AZN - defined attribution, not uplift

My callbacks

Due time and policy eligibility control allocation

Customer	Requested time	Next action	Eligibility
Demo customer 101	Today / 10:30	Customer callback	Eligible at 10:30
Demo customer 114	Today / 11:00	Payment follow-up	Check source first
Demo customer 127	Today / 14:30	Customer callback	Assigned to me

My promises due today

Scoped to authorized follow-up ownership

Demo customer 011
275.00 AZN — Kept / verified payment

Demo customer 012
270.00 AZN remaining — Partially paid

Demo customer 013
180.00 AZN — Awaiting reconciliation

Readiness and next assignment

Go Ready once. The dialer reserves an eligible customer and available agent, then opens the correct profile and script automatically. No browsing or selecting the next borrower is required.

My outcome draft: none pending

My follow-up tasks

3 callbacks today

2 payment claims to reconcile

1 support referral awaiting review

No access to bank-wide strategy administration.

S28B / LIVE CUSTOMER CONVERSATION

Live customer conversation

Call CALL-DEMO-041 / automatically assigned to Senior Agent A / one active voice interaction.

Connected / 02:14

L-DEMO-001 / C-DEMO-001 / provider-confirmed call state

Mute | Hold | Transfer | End

Overdue now	Principal outstanding	Current DPD	Next installment
499.24	10,000.00	7	20 Nov
AZN - due 20 Oct 2026	AZN - authoritative projection	All related loans visible	499.24 AZN / regular annuity

Subject to RPC cooldown

Guided conversation / EN preview

Pinned template DEMO-SOFT-01 - bank approval required

1 Verify | 2 Explain overdue | 3 Agree action

Explain the overdue installment

Our records show that the installment of 499.24 AZN, due on 20 October, remains unpaid. Can you help me understand what happened and what payment would be manageable?

Branch based on the customer response

Payment timing -> commitment / callback

Already paid -> reconcile claimed payment

Affordability difficulty -> support referral

Debt disputed -> dispute workflow

Live payment updates appear without ending the call.

Responses / draft

Structured dropdowns and conditional fields

Identity status

Right party verified

Reason for non-payment

Short-term cash-flow timing

Business outcome

Promise to pay

Promise amount / deadline

499.24 AZN / 30 Oct 2026

Draft saved / not yet submitted

Final validation and provider wrap-up occur after the call ends.

S28C / AFTER-CALL WORK

After-call work

Call ended / outcome required before the next automatically assigned voice call.

ACW / 00:35 — **CALL-DEMO-041 / Conversation duration 03:42 / Next call blocked** — Agent A

Call outcome / Demo customer 001

System result and agent business outcome are different facts

Technical result - provider: Answered / agent bridged

Identity status: Right party verified

Primary business outcome: Promise to pay

Reason for non-payment: Short-term cash-flow timing

Promised amount / AZN: 499.24

Payment deadline: 30 Oct 2026

Covered obligation: L-DEMO-001 / October contractual installment

Additional note: Customer confirmed the amount and deadline. No contract change requested.

Save outcome & return Ready | Save & stay Not ready

Next distribution waits for saved outcome and provider confirmation.

S17 / LIVE SOFT-COLLECTION SUPERVISION

Live soft-collection supervision

Provider-confirmed agent states, campaign work and pending wrap-ups in one supervisor view.

Signed-in agents	Ready / talking	Pending wrap-up	Eligible backlog
5 / 6	**1 / 1**	**1**	**132**
Offline roster shown separately	Reserved is a separate state	No next call until saved	Prioritized / restrictions applied

Agent	Confirmed state	Elapsed	Current customer	Queue / skill	Outcome save	Operational state
Senior Agent A	Talking	02:14	C-DEMO-001	Bucket 10	Draft saved	Call context loaded / healthy
Senior Agent B	Ready	00:18	Awaiting work	Bucket 10	None pending	Available for next reservation
Agent C	After-call work	00:35	C-DEMO-018	Buckets 8-9	Required fields	Next voice assignment blocked
Agent D	Break	04:12	None	Buckets 8-9	Completed	Unavailable by agent request
Agent E	Reserved	00:05	C-DEMO-027	Buckets 8-9	Not applicable	Dialing / no second reservation
Agent F	Offline	12:40	None	Buckets 8-9	None pending	Signed out / cannot receive calls

Controls and escalation

Pause new allocations, inspect a stuck wrap-up, or reassign an eligible callback with a reason. No silent outcome edits.

Execution health

Check screen-pop delay, CTI state mismatches, payment-driven withdrawals and confirmed suppression. Unknown provider state pauses routing.
